Ne zaboravite prvo ukloniti lične podatke s uređaja. Nemojte odlagati ove proizvode kao nesortirani komunalni otpad: predajte ih na recikliranje. Za informacije o najbližem mjestu za reciklažu, obratite se svom lokalnom tijelu nadležnom za otpad ili pročitajte o HMD-ovom programu povrata i njegovoj dostupnosti u vašoj zemlji na www.hmd.com/support/topics/recycle.

BATTERY AND CHARGER INFORMATION

Battery and charger

Use your device only with an original BL-5CB rechargeable battery.

Charge your device with AC-18 charger. Charger plug type may vary.

HMD Global may make additional battery or charger models available for this device.

Battery and charger safety info

To unplug a charger or an accessory, hold and pull the plug, not the cord.

When your charger is not in use, unplug it. If left unused, a fully charged battery will lose its charge over time.

Always keep the battery between 59°F and 77°F (15°C and 25°C) for optimal performance. Extreme temperatures reduce the capacity and lifetime of the battery. A device with a hot or cold battery may not work temporarily. Accidental short-circuiting can happen when a metallic object touches the metal strips on the battery. This may damage the battery or the other object.

Do not dispose of batteries in a fire as they may explode. Obey local regulations. Recycle when possible. Do not dispose as household waste.

Do not dismantle, cut, crush, bend, puncture, or otherwise damage the battery in any way. If a battery leaks, do not let liquid touch skin or eyes. If this happens, immediately flush the affected areas with water, or seek medical help. Do not modify, attempt to insert foreign objects into the battery, or immerse or expose it to water or other liquids. Batteries may explode if damaged.

Use the battery and charger for their intended purposes only. Improper use, or use of unapproved or incompatible batteries or chargers may present a risk of fire, explosion, or other hazard, and may invalidate any approval or warranty. If you believe the battery or charger is damaged, take it to a service centre or your phone dealer before continuing to use it. Never use a damaged battery or charger. Only use the charger indoors. Do not charge your device during a lightning storm.

MALA DJECA

Vaš uređaj i njegovi pribori nisu igračke. Oni mogu sadržavati male dijelove. Držite ih van dohvata male djece.

MEDICINSKI UREĐAJI

Funkcioniranje radio prijenosne opreme, uključujući bežične telefone, može ometati funkcije neadekvatno zaštićenih medicinskih uređaja. Posavjetujte se s liječnikom ili proizvođačem medicinskih uređaja da utvrdite da li je medicinski uređaj adekvatno zaštićen od vanjske radio energije.

IMPLANTIRANI MEDICINSKI UREĐAJI

Da biste izbjegli potencijalne smetnje, proizvođači implantiranih medicinskih uređaja (kao što su srčani pejsmejkeri, insulinske pumpe i neurostimulatori) preporučuju minimalnu udaljenost od 15,3 centimetra (6 inča) između bežičnog uređaja i medicinskog uređaja. Osobe koje imaju takve uređaje trebaju:

- Uvijek držite bežični uređaj na udaljenosti većoj od 15,3 centimetra (6 inča) od medicinskog uređaja.
- Ne nosite bežični uređaj u džepu na grudima.
- Držite bežični uređaj na uhu nasuprot medicinskom uređaju.
- Isključite bežični uređaj ako postoji bilo koji razlog za sumnju da dolazi do smetnji.
- Slijedite upute proizvođača za implantirani medicinski uređaj.

Ako imate bilo kakva pitanja u vezi s korištenjem bežičnog uređaja s implantiranim medicinskim uređajem, posavjetujte se sa zdravstvenim radnikom.

SLUH

Upozorenje: Kada koristite slušalice, to može uticati na vašu sposobnost da čujete spoljašnje zvukove. Nemojte koristiti slušalice s mikrofonom tamo gdje to može ugroziti vašu sigurnost.

Neki bežični uređaji mogu ometati neka slušna pomagala.

ZAŠTITITE UREĐAJ OD ŠTETNOG SADRŽAJA

Uređaj može biti izložen virusima i drugom štetnom sadržaju. Poduzmite sljedeće mjere predostrožnosti:

- Budite oprezni kada otvarate poruke. One mogu sadržavati zlonamjernim softver ili na drugi način biti štetne za uređaj ili računar.
- Budite oprezni kada prihvatate zahtjeve za povezivanje, pretražujete internet ili preuzimate sadržaj. Nemojte prihvatati Bluetooth veze od izvora kojima ne vjerujete.
- Instalirajte i koristite samo usluge i softver iz izvora u koje imate povjerenja i koji nude adekvatnu sigurnost i zaštitu.

- Instalirajte antivirusni i drugi sigurnosni softver na svoj uređaj i bilo koji povezani računar. Koristite samo jednu antivirusnu aplikaciju istovremeno. Korištenje više njih može uticati na performanse i rad uređaja i/ili računara.
- Ako pristupate unaprijed instaliranim oznakama i vezama na internet stranice trećih strana, preduzmite odgovarajuće mjere predostrožnosti. HMD Global ne prihvata niti preuzima odgovornost za takve stranice.

VOZILA

Radio signali mogu uticati na neispravno instalirane ili neadekvatno zaštićene elektroničke sisteme u vozilima. Za više informacija, raspitajte se kod proizvođača vozila ili opreme. Samo ovlašteno osoblje smije instalirati uređaj u vozilo. Pogrešno instaliranje može biti opasno i poništiti garanciju. Redovno provjeravajte da li je sva bežična oprema u vašem vozilu montirana i da li ispravno funkcionira. Nemojte skladištiti ili nositi zapaljive ili eksplozivne materije u istom odjeljku kao i uređaj, njegove dijelove ili dodatke. Nemojte stavljati uređaj ili dodatke u područje angažiranosti zračnog jastuka.

POTENCIJALNO EKSPLOZIVNA OKRUŽENJA

Isključite uređaj u potencijalno eksplozivnim okruženjima, kao npr. u blizini benzinskih pumpi. Iskre mogu izazvati eksploziju ili požar koji dovodi do povrede ili smrti. Imajte na umu ograničenja u područjima s gorivom, hemijskim pogonima i na mjestima na kojima se provodi miniranje. Područja s potencijalnim eksplozivnim okruženjima nekada nisu jasno označena. To su obično područja u kojima se preporučuje da isključite motor, u potpalublju broda, objektima za prevoz i skladištenje hemikalija te područjima gdje zrak sadrži hemikalije ili čestice. Provjerite s proizvođačem vozila koje koriste ukapljeni naftni plin (kao što je propan ili butan) da li se ovaj uređaj može sigurno koristiti u njegovoj blizini.

INFORMACIJE O CERTIFICIRANJU (SAR)

Ovaj mobilni uređaj zadovoljava smjernice za izloženost radio valovima.

Vaš mobilni uređaj je radio odašiljač i prijemnik. Napravljen je da ne prekoračuje ograničenja za izloženost radio valovima (radio frekvencija elektromagnetnih polja), koju preporučuju međunarodne smjernice nezavisne naučne organizacije ICNIRP. Ove smjernice obuhvataju značajne sigurnosne granice namijenjene da osiguraju zaštitu svih osoba bez obzira na dob i zdravlje. Smjernice za izloženost su zasnovane na Specifičnoj stopi apsorpcije (SAR) koja predstavlja izraz količine energije radio frekvencije (RF) koja se odlaže u glavi i tijelu dok uređaj izvršava prijenos. ICNIRP SAR granica za mobilne uređaje iznosi u prosjeku 2,0 W/kg na 10 grama tkiva.

SAR testiranja se provode s uređajem u standardnim radnim položajima pri prijenosu najvišeg certificiranog nivoa energije u svim frekvencijskim opsezima.

Ovaj uređaj zadovoljava smjernice o izlaganju radiofrekventnim valovima kada se koristi na glavi ili najmanje 5/8 inča (1,5 centimetara) od tijela. Kada koristite futrolu, pojas ili drugu vrstu

držača uređaja radi njegovog nošenja uz tijelo, on ne bi trebao sadržavati metal i trebao bi osigurati minimalno gore navedenu udaljenost od tijela.

Za prijenos podataka ili slanje poruka potrebna je kvalitetna mrežna veza. Slanje može kasniti dok takva veza ne bude dostupna. Pridržavajte se uputstava o držanju rastojanja tokom slanja.

Tokom opće upotrebe, SAR vrijednosti su obično dosta niže od gore navedenih vrijednosti. To je zbog toga što se u svrhe sistemske efikasnosti i minimiziranja smetnji na mreži radna energija mobilnog uređaja automatski smanjuje kada nije potrebna puna energija za pozivanje. Što je manja izlazna energija, to je manja SAR vrijednost.

Modeli uređaja mogu imati različite verzije i više od jedne vrijednosti. Tokom vremena se mogu pojaviti promjene na komponentama i dizajnu, a neke od njih mogu uticati na SAR vrijednosti.

Za više informacije, idite na www.sar-tick.com. Zapamtite da mobilni uređaji vrše prijenos čak i kada ne upućujete glasovni poziv.

Svjetska zdravstvena organizacija (WHO) navodi da trenutne naučne informacije ne ukazuju na potrebu za bilo kakvim posebnim mjerama opreza pri korištenju mobilnih uređaja. Ako želite smanjiti izloženost, oni preporučuju da ograničite upotrebu uređaja ili da koristite opremu za upravljanje uređajem bez dodira da biste udaljili uređaj od glave i tijela. Dodatne informacije, objašnjenja i rasprave o izlaganju radijskoj frekvenciji potražite na web-lokaciji SZO www.who.int/health-topics/electromagnetic-fields#tab=tab_1.

Posjetite web lokaciju www.hmd.com/sar za informacije o maksimalnoj vrijednosti specifične stope apsorpcije (SAR) uređaja.
